- ◆ Football club
- ◆ Environmental Protection Agency
- ◆ Hand maker club
- ◆ Videogame club
- ◆ Association of Emergency Treatment

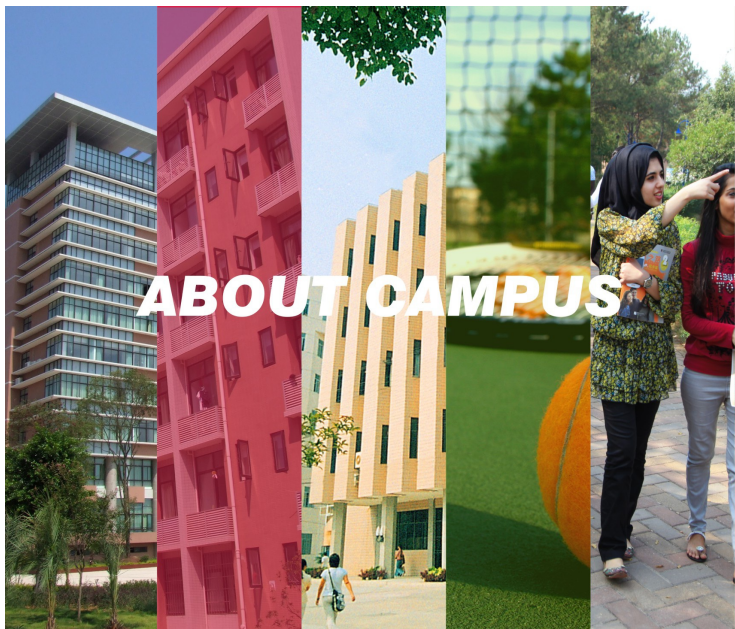

# CORPORATE SOCIAL RESPONSIBILITY

## CORPORATE SOCIAL RESPONSIBILITY

*Socially responsible institutions see the world as their local community.*

GMU is dedicated to corporate social responsibility (CSR) and participates actively in various regional Corporate Social Responsibility (CSR) programs. As a member of today's rapidly changing global community, we are striving to adapt to the evolving needs of the society and contribute to the overall health and wellness of our world. We are building partnerships with communities throughout the world to strengthen health systems, increase access to our medicines and find sustainable solutions to the health challenges of today, and tomorrow.

## ABOUT CAMPUS

GMU boasts Zhanggong Campus and Huangjin Campus covering surface area of more than 800,000 m<sup>2</sup> with a building area of 300,000 m<sup>2</sup>. The University campus is strategically located in Zhanggong and Huangjin district of Ganzhou. In addition to classrooms, laboratories and other academic facilities, the campus offers sports, recreational facilities and other facilities including multi-purpose auditorium, Industrial Centre and language learning centers. A full range of campus services including restaurants, bookstores and banks are also provided. Student hostels are located within the campus very close to the teaching and laboratory buildings.

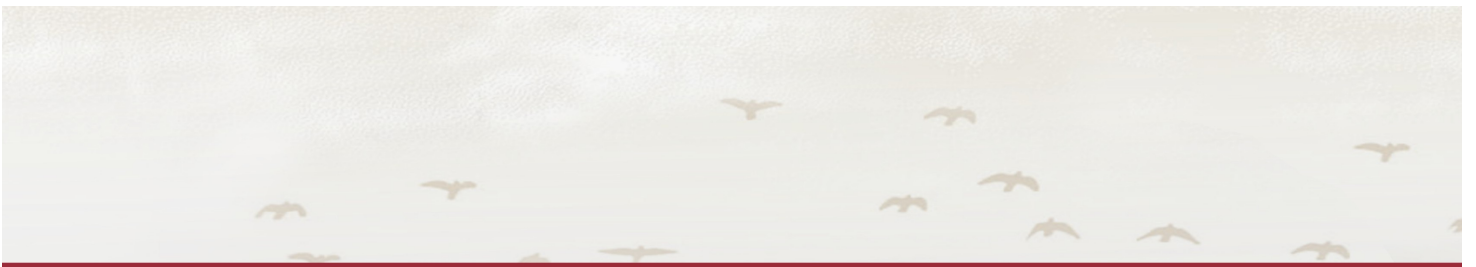

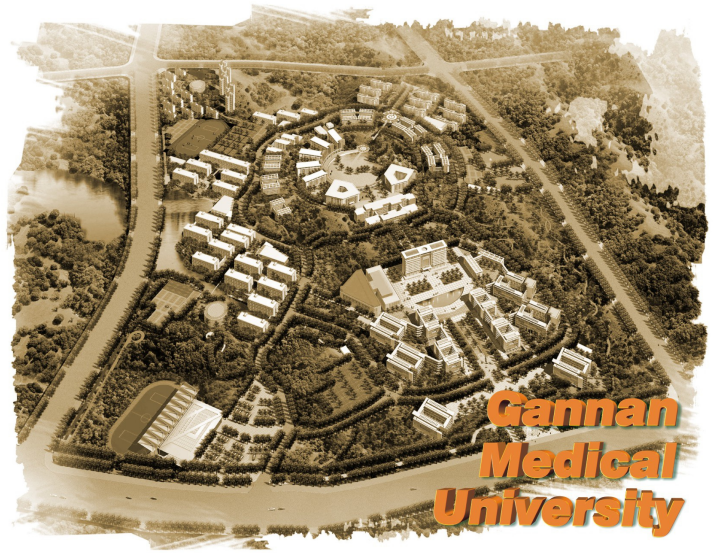

## BRIEF INTRODUCTION OF GANZHOU

Ganzhou, one-fourth of Jiangxi Province land-wise and one-fifth population-wise, is located at the upper reach of the Ganjiang River. With efficient traffic and transportation networks of expressway, railway and airway, it is linked conveniently to all parts of China. Ganzhou, with an agreeable climate, is a pleasant living place. The city is honorably known as the "World Capital of Tungsten", the "Kingdom of Rare-earth" and the "Home of Navel Orange" because of its abundant resources. Ganzhou wins the honor of "Cradle of Hakka People" for its largest volume of Hakka residence. The Hakka people are enthusiastic and virtuous, hardworking and forbearing, and rich in the spirit of innovation. The unique architectural wisdom of Hakka Enclosed House, the special taste of Hakka Ground Tea, and the beautiful melody of Hakka Folk Songs, are well known both in China and overseas. The Zhanggong Region, where the locus of Ganzhou city remains, is an ancient city of over 2,000 years and it is appraised as "National Famous City of Cultural Heritage". Due to its profound cultural deposit and preserved numerous buildings of Song Dynasty, the city has also been given the title of Historic Museum of Song Dynasty.

## MESSAGE FROM THE PRESIDENT

Each of you who are reading this letter have reached a certain crossroad in your life; you will now have to make that all important decision of choosing a university where you can immerse yourself in the science of medicine, where you can work on your dream to transform yourself from a student into a professional-in short become a doctor. And you are making this decision at a time when the world has become a global village. I am happy to inform you that there is a certain university in China that will help make your dreams come true-Gannan Medical University.

Ability to provide high-quality medical education and affordability are some of the important factors that aspiring doctors take into account when choosing a medical university for higher education studies. Gannan Medical University provides you the opportunity to avail yourselves of a rigorous curriculum in medicine, and as you work towards your degree you will be studying with experienced doctors and professors, in a university that has been producing doctors well over seven decades. And yet, the tuition fees are very much affordable.

I know that prospective students also ask something more from a university; that the university be welcoming of them and that the university offers them an enjoyable, exciting and memorable campus experience. That our university is welcoming of people from all around the world can be attested to by the fact we currently have more than 10,000 students from different regions of China and abroad.

GMU is nestled in the heart of Ganzhou, a charming, mid-sized city with all the necessary amenities, the university itself has a state-of-the-art teaching hospital, sports facilities and hostels that are among the best in the province. But most importantly, we have friendly citizens and friendly staff and students who will, and I vouch for this, help make your stay in China a memorable, fulfilling and exciting one.

韩立民  
Prof. Dr. Han Limin  
President of GMU, Jiangxi, P.R. China

**Be Moral and Decent · Be Practical and Innovative**

## **INTRODUCTION OF GMU**

Located in a city in the southern part of Jiangxi Province called Ganzhou, Gannan Medical University (GMU) – a university of medical sciences under supervision of Jiangxi Province Government – boasts 19 bachelor degree majors and 16 college majors, possesses six affiliated hospitals and various cooperating teaching hospitals, enjoys a beautiful campus and good atmosphere and covers a surface area of 800,000 m<sup>2</sup> with a building area of 300,000 m<sup>2</sup>.

Since its establishment in April of 1941, GMU has made great contributions to health and medical education and has trained more than 40,000 health professionals working in many places home and abroad over the past decades. It has currently become an important base for cultivating medical talents, supplying scientific services and innovative knowledge in Jiangxi Province.

Gannan Medical University is recognized by World Health Organization, Ministry of Education, P.R. China, UNESCO and Chinese Medical Association and currently boasts of about 10,000 students from home and abroad. GMU has established stable relationships and exchange programs with universities of USA, Europe, Japan, and other countries of Asia.

## ACADEMIC

GMU is oriented to providing majors in medicine, coordinates integration of multiple disciplines, inherits the academic faith of "Broadening Knowledge, Intensifying Basis, Emphasizing Practice, and Pursuing Innovation" and boasts 19 bachelor degree majors and 16 college majors, covering Medicine, Science, Engineering, Literature, Law, Management and Education.

GMU offers high quality education for bachelor's degree and other college majors, innovates academic faith, adheres to teaching reform, implements bachelor's degree teaching quality and reform projects, intensifies quality of education, actively promotes bilingual teaching, establishes science and technology innovation fund for undergraduates and intensively supports students to carry out science and technology innovation activities thereby cultivates innovation capacities.

GMU adheres to be oriented to the talent-market demands, regards the all-round development as the basis and encourages students to work hard theoretically and practically to graduate out as advanced applied talents.

### Current Bachelor Degree Majors List (Up to November 2013)

Schools	Majors

### Current College Majors List (Up to November 2013)

Clinical Medicine	Nursing	Pharmacy	Laboratory Medicine
Art Design	Medical Apparatus Manufacturing & Maintenance	Public Health Management	Applied English
Medical Imaging Technology	Pharmaceutical Marketing	Integration of Traditional Chinese & Western Medicine(TWJ)	Midwifery
Stomatology Technology	Quality Testing Technology of Medicines	Public Relations	Labor & Social Security

# STUDENTS

## STUDENTS

GMU currently boasts more than 10,000 students, including 9,010 undergraduates, 1,676 college students, 135 overseas students, and 6,776 students majoring in adult education. In its 70-Year-Old history, GMU cultivated more than 40,000 advanced professionals. Over the past few years, GMU acted as a pioneer in implementing the Talent Cultivation Pattern of Orders in Jiangxi province, directly serving the medical hospitals at grassroots level and contributing to the medical causes of Jiangxi province and the neighboring areas.

Since September 2005, full-time students from south Asia and Africa are recruited to study MBBS. International Educational College (IEC) focuses on GMU's reform and development, implements the policy of "Monitoring Volume, Boosting Quality, Being Scientific, Standardizing Administration" and makes exploration in the teaching and management of overseas students. Until 2013, more than 241 foreign students have graduated successfully from GMU. The students from 22 different countries study together with the Chinese students in the same campus.

- Haematology Institute

## Research

Over the past years, GMU undertook 800 research projects being funded with nearly 20 million RMB by National Natural Science Foundation, Natural Science Foundation of Jiangxi Province, Department of Education of Jiangxi Province, Health Department of Jiangxi Province and Science and Technology Bureau of Ganzhou; more than 250 research projects of school level funded with over 1.5 million RMB; and more than 130 research projects funded with around 60,000 RMB and offered special science and technology service for large and medium enterprises funding GMU with more than 10 million RMB for research. 64 research achievements were evaluated to be successful by Department of Science and Technology of Jiangxi Province. And more than 70 research achievements, 1 latest technology project A from Ganzhou Medical Association and 46 latest technology projects B were evaluated to be successful by Department of Science and Technology of Ganzhou, which boasted 12 national leading ones, 44 provincial leading ones, 5 national latest ones, 7 provincial latest ones and 1 municipal leading one.

In the Twelfth Five-Year Plan, science and technology work of GMU highlights "One Centre, Two Priorities" and is intensified to realize leap-forward development. "One Centre" refers to that research focuses on cultivating talents, in which cultivating scientific spirit and research capabilities are incorporated into the cultivation goals and that research superiority is converted into the cultivating talents'. "Two Priorities" refer to that priority is internally laid to highlight interdisciplines and realize breakthrough in the new fields formed by interdiscipline. Priority is externally laid to highlight the regional and national economy and society development strategy and to determine research fields and tasks based on greater regional and national demands.

Gannan Medical University (GMU) has dedicated itself to academic exchange(AE) with medical institutes home and abroad and defined AE as a mutual beneficial program. Dynamic AE have been made with partner universities from America, Japan, England and Korea. A number of academicians and doctoral supervisors from various countries and regions such as America, Japan, Australia and Hong Kong have been invited to conduct seminars in GMU. Moreover, more than 100 specialists have participated in a number of international academic symposiums.
